ECOWAS Counter-Terrorism Strategy Tracker

November 2017

1.0 INTRODUCTION

The ECOWAS Counter-Terrorism Strategy Tracker (ECTS-Tracker) is an open data platform that provides practical analysis of operational policy framework for ECOWAS counter-terrorism, actions, supports, and serves as a knowledge base that promotes a common regional approach for counterterrorism by both state and non-state actors through the documentation and analysis of cases, activities, and incidences of extremist violence across the West African sub-region. This is done specifically by looking at the location, trends, and patterns of incidences of violent extremism within the West Africa sub-region. The ECTS-tracker also serves as a tool in monitoring the efforts of states in implementing the ECOWAS Counter-Terrorism Strategy (CTS).

2.0. OVERVIEW OF THE MONTH

In the month of November, countries in the West Africa/ Lake Chad region witnessed a hosts of terrorist attacks. These attacks are largely perpetrated by Boko Haram, al-Qaida and Islamic State-affiliated groups. In the period under review, Boko Haram caused over 98 deaths, including both civilians and military. Many of these deaths recorded in the Lake Chad region occurred from suicide bombings, a tactic (Soft Attack) increasingly favoured by the insurgents.

The Nigerian government on its front is also militarily training to contain Boko Haram in the Sambisa forest. This period witnessed the deployment of 150 soldiers to complement the fight against terrorism in the region by Benin Republic deployed. The troops comprised of 8 officers and 142 soldiers, arrived Multinational Joint Task
3.0 TRENDS AND PATTERNS OF EXTREMIST VIOLENCE AND COUNTERTERRORISM

A. PROGRESS

ECOWAS Counter-Terrorism strategy is based on three pillars: preventing terrorism, pursuing terrorism, and reconstructing communities in the aftermath of conflict. This period demonstrated progress on these fronts, as well as the challenges that remain.

The G5 Sahel comprising troops from forces from Mali, Niger and Burkina Faso launched the Joint Multi-National Military Operation. The operation is aimed at countering and combating Islamist insurgencies such as al-Qaida and Islamic State-affiliated groups, and to also take total control of porous borders in all the areas concerned. The Operation is supported by France and the United State of America, who has promised up to $60 million in support of the operation. In line, with the recent killing of four United States of America Special Forces in Niger, The United State Government, reached agreement with Niger government, to make use of armed American military drones in countering jihadist terrorist groups, which include Nigeria-based Boko Haram, Algeria-based al-Qaida in the Islamic Maghreb and Islamic State fighters operate.

4.0 KEY DEVELOPMENTS

A. MALI

In the period under review, Mali confronted a series of assaults from Islamic jihadist extremists operating across the border of Sahel West Africa region, which boasts an array of criminalities and jihadist activities in

the state. These assaults came from different locations which led to the demise of five (5) Malian Soldiers, one civilian, four United Nations peacekeepers, while 21 peacekeepers were injured during the clash. One of the prominent assaults was an ambush on the convoy of the President of the High Court of Justice in Mali, Abdrahamane Niang.

In November, Nigeria continues to face challenges in curbing the Boko Haram insurgency. The Nigerian military force continues its offensive operation (Deep Punch II) against Boko Haram insurgents. Military operations of various degrees assault aiming at clearing the remnant of the insurgent have led to the death of over 21 terrorists at different locations and the rescue of 30 hostages held in captive by an insurgent. Seventeen soldiers paid the ultimate price by losing their lives in combat, while 15 were left with various degrees of injuries.

B. NIGERIA

Burkina Faso faced with terrorist threats from the Islamic States of Greater Sahara branch. A group that claimed their first attack on Burkina soil in September 2016.

---

This period, ahead of French President Emmanuel Macron, who became first French president to pay a visit to the Sahel West African nation, after three decades.\(^7\)

Two masked terrorist individuals riding on a motor scooter injured three civilians, after detonating grenade at a French army vehicle, heading for an army barrack housing French special services, and security forces.\(^8\)
